**DETERMINATION OF BILLING DEMAND**

The on-peak billing demand shall be the measured maximum kilowatt sixty-minute clock hour demand, occurring while Randolph EMC's Load Management System is controlling load for the month for which the bill is rendered, as indicated or received by a time-of-use demand meter and adjusted for power factor as provided hereafter.

The maximum peak billing demand shall be the maximum kilowatt demand established by the consumer for any sixty-minute clock hour during the month for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as provided hereafter. In no event shall the maximum peak billing demand be less than the contract demand.
